REMIND APP:

Although the website is a useful tool, I have found that ‘Remind’ is a more practical communication tool for students. This app allows me to communicate with students (via text or email) without ever exchanging cell phone numbers or email addresses. Communication is routed through a third-party number/email server and allows me to send reminders about homework assignments, announcements and upcoming evaluations.

Send a text to **(902) 701-9279** with the message **@period3fou** or email **period3fou@mail.remind.com**.
