

## **On-Line Lessons for Terry Whalen**

**Period 5 – Housing and Design 120** - At this time, we are unsure when we will be back to school we are obviously dealing with some very unique and at times stressful circumstances none of us have ever had to deal with. If you would like to continue working on course content for Housing and Design 120 I have included three projects. These completed project can be e-mailed to me for feedback.

No deadline will be attached to these assignments, complete as time allows but I envision them each taking between 6 and 12 hrs to complete. When completed you can take a photo or attach the completed file and e-mail that to me. If you have any questions or concerns you can send me an e-mail at [terry.whalen@nbed.nb.ca](mailto:terry.whalen@nbed.nb.ca)

**Assignment # 1 – Housing and Design 120 – Room Design Assignment.** Using photos or personal sketches design a layout of a room in a house. Pick a style, color scheme and brief explanation of your vision. As an example if you were to re-design a living room, you would include the color scheme, the color of paint you would be using for the walls, color of trim, color of doors etc. You would also provide pictures of the furniture you would be including and a sketch of the location of this furniture. Light fixtures, end tables, mirrors, TV's..... anything you plan to have in this room. It is up to you to provide enough information that another interior designer could complete your vision. My suggestion would be to do a living room, or kitchen. These are normally two rooms that typically showcase the style of a house, and most visible to guests. No firm deadline will be attached to this assignment, complete as time allows but I envision it taking between 6 and 8 hrs. to complete. When completed you can attach photos of drawings, sketches etc. and e-mail them to me. If you have any questions or concerns you can send me an e-mail at [terry.whalen@nbed.nb.ca](mailto:terry.whalen@nbed.nb.ca)

**Assignment # 2 – Housing and Design 120 – Landscaping Design Assignment.** Using photos from Google or photos you have taken or personal sketches design a landscape layout of a house. Things to include are but not limited to the following – lawn design, flowers, trees and scrubs, walkways, elevation changes, swimming pools, gazebos, flower gardens, fencing, retaining wall or any order design element you would like to include. Be creative and think outside the box where possible. It is up to you to provide enough information that another interior designer could complete your vision. No firm deadline will be attached to this assignment, complete as time allows but I envision it taking between 8 and 10 hrs. to complete. When completed you can attach photos of drawings, sketches etc. and e-mail them to me. If you have any questions or concerns you can send me an e-mail at [terry.whalen@nbed.nb.ca](mailto:terry.whalen@nbed.nb.ca)

**Assignment # 2 – Housing and Design 120 – Personal Project Assignment.** Design and draw a unique and new style of house, one never before seen. It could be round, could be 10 feet underground. Think of the new world, maybe consider how our needs will change. It could have to do with being more safe or getting away from the elements or being more cost effective. This is up to you, be creative and again, think outside the box. Using photos from Google or photos you have taken or personal sketches design this new house or living quarters. It is up to you to provide enough information that someone can see the vision you are going for. No firm deadline will be attached to this assignment, complete as time allows but I envision it taking between 10 and 15 hrs. to complete. When completed you can attach photos of drawings, sketches etc. and e-mail them to me. If you have any questions or concerns you can send me an e-mail at [terry.whalen@nbed.nb.ca](mailto:terry.whalen@nbed.nb.ca)
