

Fashion Technology 120 Course Outline

Ms. Lynch

Semester 1

Welcome to Fashion Technology 120! The purpose of this program is to extend sewing ability needed to construct intermediate or advanced sewing projects. Students will continue mastering the skills that will allow them to construct and maintain clothing for themselves and their families. Some of these skills for the preparation to sew include: ironing/pressing, taking measurements, textile care, fabric use, pattern alterations, mending, cutting and marking techniques. Other skills for clothing construction include: casing, centered zipper, collar, cuffs, grading, buttonhole, darts, interfacing, pipping, pleats, fasteners, stitching in the ditch, machine hemming, seam finishes, gathering, and hand-stitching.

Unit 1 – Preparing to Sew Review (1 week)

- Tools & Equipment
- Safety in the lab
- Ironing & Pressing
- Textile Characteristics

Unit 2 – Pattern Adjustments (2 weeks)

- Layout of fabric and pattern
- Taking measurements and determining pattern size
- Pattern alterations
- Pattern design
- Cutting and marking techniques

Unit 3 – Advancing Sewing Skills (2 weeks)

- Sewing machine add ons
- Winding the bobbin and threading the machine
- Tools to help you finish your projects

Unit 4 – Clothing Construction (13 weeks)

- Hand stitching / Machine Stitching / Serger
- Seams and seam finishes
- Mending / alterations

Assessment:

Projects	80%
Tests, Quizzes, Lessons	20%

Textbook: *Clothing – Fashion, Fabrics & Construction*

Late Policy: All assignments are expected on the day that they are due. Assignments which are passed due will be reduced 10% per day for the first four days. The assignment will be evaluated at 60% for days 5, 6 and 7. After day seven, the mark is zero.
