

Are you interested in learning about people, cultures, and civilizations of the very distant past?

Do the tools, objects, and artifacts they left behind fascinate you?

get hands-on with

UNB's archaeology summer program

Gain the knowledge and the tools you need to discover your inner archaeologist!

- Experience an excavation site
- Earn university credits while you excavate
- Learn from Mi'kmaq and Wolastoqiyik Elders

Open to undergraduate students at any level, including those entering their first year, adult learners with an interest in archaeology, and high school students wishing to explore the archaeological realm.*

**Speak with your guidance counsellors.*
