

[Lab - Owl Pellet Dissection.pdf](#)

DUE: Wednesday, March 27th

TODAY: You will be working individually on a case study...answer all questions on the given pages. You can discuss possible solutions with a partner but each person is responsible for completing the case study in their own words.

DO Questions #1 - 3 and DO #4 individually rather than with a group.

*****READ over #5 but we will complete this together tomorrow.**

[Snow Goose - A Species and Ecosystem in Peril.pdf](#)

HW: Finish Case Study if not done by the end of class.
