

DISCUSSION...from Lessons of Easter Island

- summarize the article.
 - major environmental issue???
 - relation to population growth...
 - carrying capacity, exponential vs logistic growth and limiting factors
 - relation to the Lorax...
 - relation to the Earth...
 - limited resources, population growth, altering the space around us
- Have 'we' found a way of life that does not fatally deplete the resources that are available?**

Population - More is Less Investigation - More is Less.pdf

PART I: Assign team members...

Team NB (- 8 %) --> _____ Devan

Team NS (5 %) --> _____ Rebecca

Team NFLD (8 %) --> _____ Zach[~]

Team ONT (13 %) --> _____ Aidan

Team ALB (16 %) --> _____ Jacob

Team BC (10 %) --> _____ Jereena

NEED...

- chart paper to record table
- large piece of graph paper
- a green, red and black marker

PART II: Collect group results.

Good...Green ✓ Harmful...Red x Undecided...Black ?

Good...Green ✓	Harmful...Red x	Undecided...Black ?
✓ Clean Water	✓ Energy	Noise
✓ Buildings	Overgrazing	Hunger
Material luxuries	Cars and roads	Unemployment
✓ Space to live	Polluted air	✓ Minerals
Soil erosion	✓ Forests	✓ Food
✓ Wildlife	Acid Rain	Garbage
Poverty	Oil spills	Crowded cities
✓ Opportunities for solitude	Endangered species	Contagious disease
Traffic congestions	✓ Available housing	International conflicts
✓ Recreational space		

✓ People
x Env.

HOMEWORK...

- continue working on ecopoints
- continue researching a topic
