

Thursday, September 11/14
Physics 112/111

Lockdown Drill (Sept. 16 - P3)

-
1. **Assignment - The Metric System Due - 2 Days Late**
 2. Return Formative Assessment - SI Prefixes
 3. Formative Assessment - Conversions and Rearranging Formulas
 4. Check: Worksheet -> Conversions and Rearranging Formulas
 5. Accuracy and Precision
 6. Experiment 2.1 - Measuring Length (Lab Manual - Page 3)
-

Sept. 11/14

Formative Assessment - Conversions and Rearranging Equations

1. Convert 4.59 ng to dag. Use conversion factors.
2. Convert 37 km/h to m/s.
3. Rearrange $d = v_i t + \frac{1}{2} a t^2$ for "a".
