

THE PREDATOR GAME

Atlantic salmon and trout are pursued by a wide variety of predators during their lives. Below are shown a wide variety of these predators.

For each predator, can you determine what life stage the salmon or trout might be prey?

Seal

Cormorant

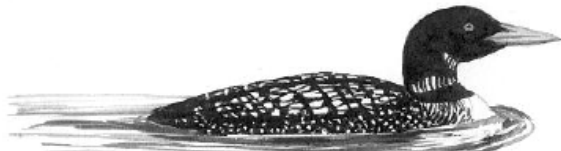

Lamprey

Angler

Great Blue Heron

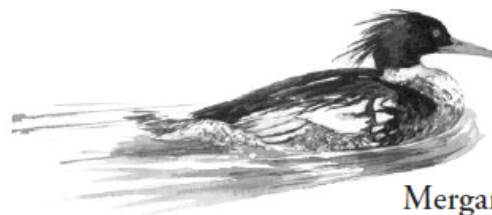

Loon

Otter

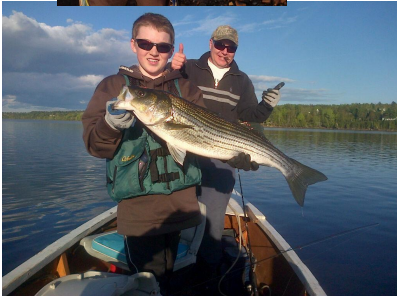

Kingfisher

Merganser

YOUR voice counts...

The screenshot shows the official website of Fisheries and Oceans Canada. At the top, there is a navigation bar with the text 'Government of Canada / Gouvernement du Canada' and 'Canada.ca | Services | Departments | Français'. Below this is the 'Fisheries and Oceans Canada' header with a large red maple leaf logo and the 'Canada' wordmark. A search bar is located on the right side of the header. The main navigation menu includes 'On the water', 'Fisheries', 'Science and Research', 'Ecosystems', 'Species', 'Aquaculture', and 'Regions'. The breadcrumb trail reads 'Home > Gulf Region > Recreational Fisheries'. The left sidebar contains sections for 'About The Gulf Region' (with sub-links for 'About Us' and 'Regional Contacts'), 'Regional Information' (with sub-links for 'Aboriginal Fisheries', 'Aquaculture', and 'Consultations Calendar'), and a globe icon. The main content area is titled 'Recreational Fisheries' and features a blue 'Online Consultations' button. Below this button, there are two bullet points: 'Online Consultation Survey for the Striped Bass Recreational Fishery in the Southern Gulf of St. Lawrence (Maritime Provinces)' and 'Online Consultation Survey for the Atlantic Salmon Recreational Fishery in the Southern Gulf of St. Lawrence (Maritime Provinces)'. On the right side, there is a 'Going Fishing' section with sub-links for 'Fishing Licence', 'Fisheries Closures / Variation Orders', and 'Integrated Fisheries Management Plans'.

Underwater World

Underwater World factsheets are brief illustrated accounts of fisheries resources and marine phenomena prepared for public information and education. They describe the life history, geographic distribution, utilization and population status of fish, shellfish and other living marine resources, and/or the nature, origin and impact of marine processes and phenomena.
