

DID YOU KNOW... Groundhog Day - Feb. 2nd!

*** If they see their shadow...
 6 more weeks of winter!!!
 *** If not, bring on the nice weather!!!

'Shubenacadie Sam'

'Punxsutawney Phil'

Why Feb. 2? Why the Groundhog?

9 Things You Didn't Know About Groundhogs
 Posted by **Stefan Sirucek** on January 31, 2014

Groundhog Day Trailer HD

LOCAL	REGIONAL	GLOBAL
<ul style="list-style-type: none"> - clear cutting (deforestation) - aquaculture - recycling - shale gas/fracking - populations (bass/salmon/deer) - water pollution 	<ul style="list-style-type: none"> - pesticides - fracking - poaching - oil sands - melting of Arctic ice 	<ul style="list-style-type: none"> - climate change - sea level - oil spills - over population - pollution - nuclear - extinction

DISCUSSION...

- ISSUES... 'Who, what, why, where and how'
- INTEREST??? Possible research project in line with theme of fisheries???

Some current environmental issues...

-  NB - Alberta Pipeline
-  Fish Farming...open vs closed contained
-  Oil Transportation on Railways
-  Shale gas in NB
-  Striped Bass and Atlantic Salmon

Let's read an article on a possible issue...

PREFIXES...

anthro - human; ***bio*** - life;

eco - ecology (the science of organisms and their relationships with the environment)

Viewpoints

1) anthropocentric: human-centered

Humans are the center of the universe and nature exists for human benefit.

2) biocentric: life-centered

Life is the center of the universe and humans are a separate yet equal part of nature

3) ecocentric: ecosystem-centered

Living and non-living parts of a particular area are equally important.
