

## Friday, September 23rd...PRACTICE for TEST

p. 261: #5, 7, 8, 9, 11, 12, 13

- For each word problem...
- 1) State Variable & Restrictions
  - 2) State Constraints & Objective Function\
  - 3) Graph constraints to get feasible region
  - 4) Use vertices in objective function to get optimal solutions

\*\*\*Whatever you do not finish in class is homework...test next week!
