Friday, September 23rd...PRACTICE for TEST

p. 261: #5, 7, 8, 9, 11, 12, 13

For each word problem... 1) State Variable & Restrictions

2) State Constraints & Objective Function\

3) Graph constraints to get feasible region

4) Use vertices in objective function to get

optimal solutions

***Whatever you do not finish in class is homework...test next week!
