

These are some strange times and some very different times in terms of your learning for the semester. We are still working through the details of what will be required of you in your courses. Everybody has more questions than answers at the moment. In the interests of continuing your education through these times, we will be offering Learning Opportunities on our school website through our Teacher pages.

Teams have been set up through Office 365 for Media Studies 120 and PDCP 10. If you are in these courses and are not able to access Teams please email me. We can work something out if you want to do work in those courses.

Patsy.Kingston@nbed.nb.ca

Entrepreneurship 110 and Human Services 110 it will depend on how many students are interested in doing the course material if we use teams. I can most definitely set up work from my Teacher Page and we can figure out if a TEAM needs to be made for the course. You can email me your work, we could have a group email. I could make a messenger group if many students want that, it will depend on what technology you students have and what technology I have to work with you.

Human Services 110 students can keep track of any acts of kindness they have seen or viewed lately. Being kind is so helpful. If you are socially connecting to any relatives or friends keep track of that as well. Human Services 110 students can keep track of any acts of kindness they have seen or viewed lately. Being kind is so helpful. Write about empathy. Who needs it? Who gives it?

Entrepreneurship 110 students can look for any innovations or inventions they have heard of or look on the internet. I have heard of many some as close as Sackville and some as far away as England.

While we wait for more information, remember to stay at home as much as you can and listen to the health professionals and their recommendations. I hope you are staying virtually connected with friends and family and that you are staying safe.

Stay safe and let me know if you have any concerns.
