

Microsoft Teams

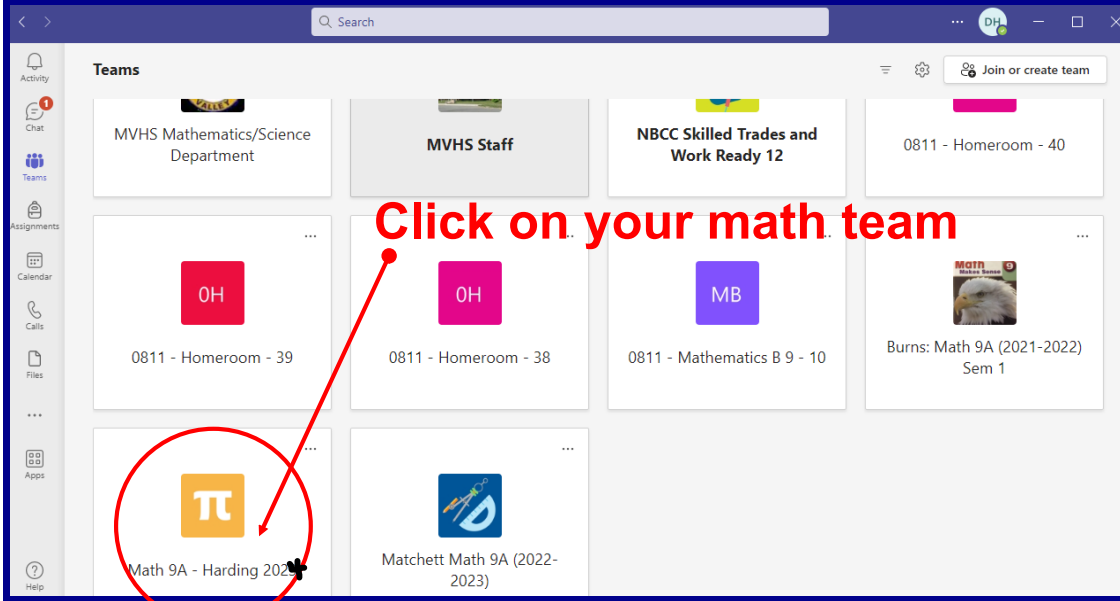

An electronic device and Internet access is needed for this. You will also need your student e-mail and password.

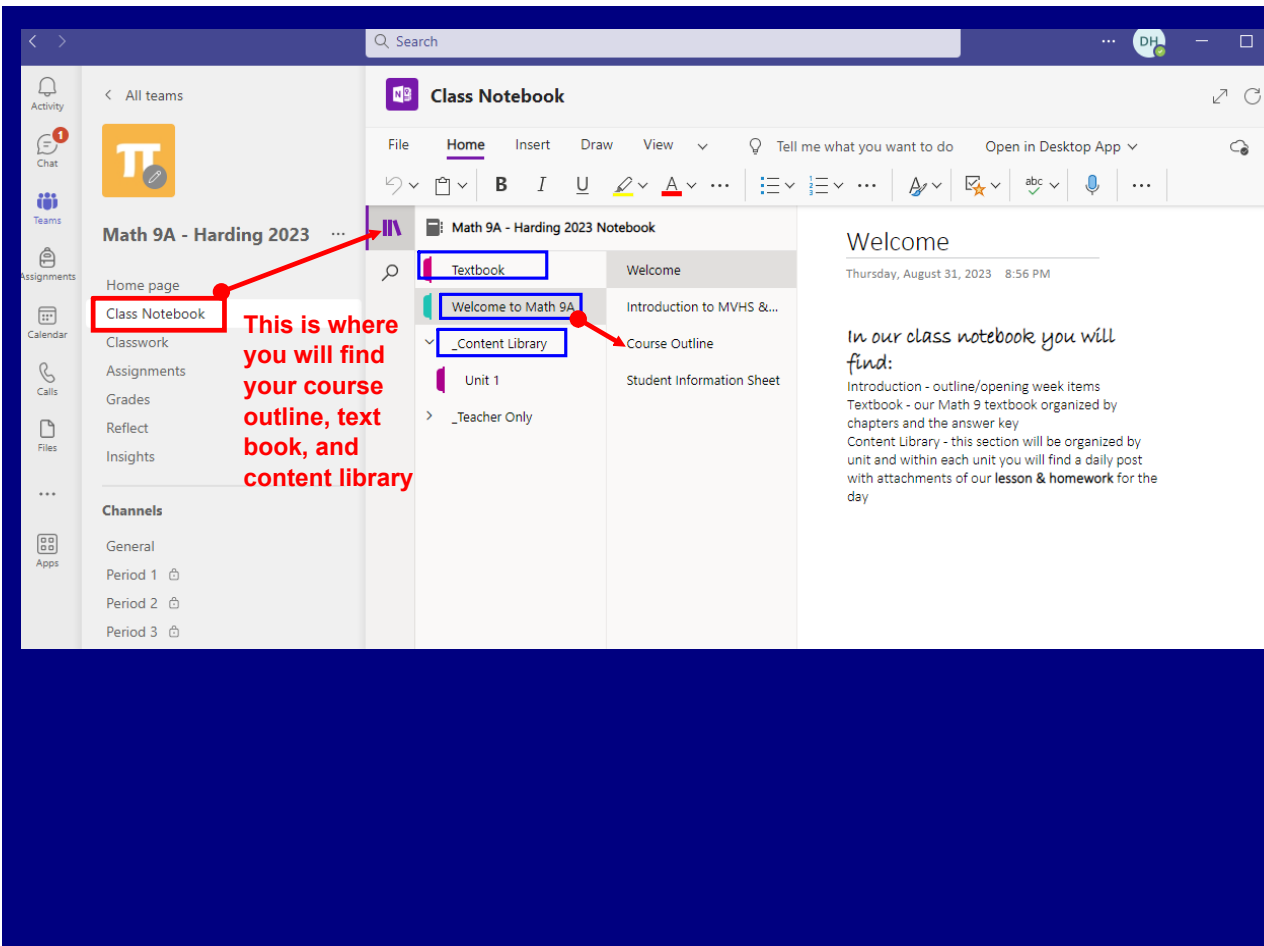

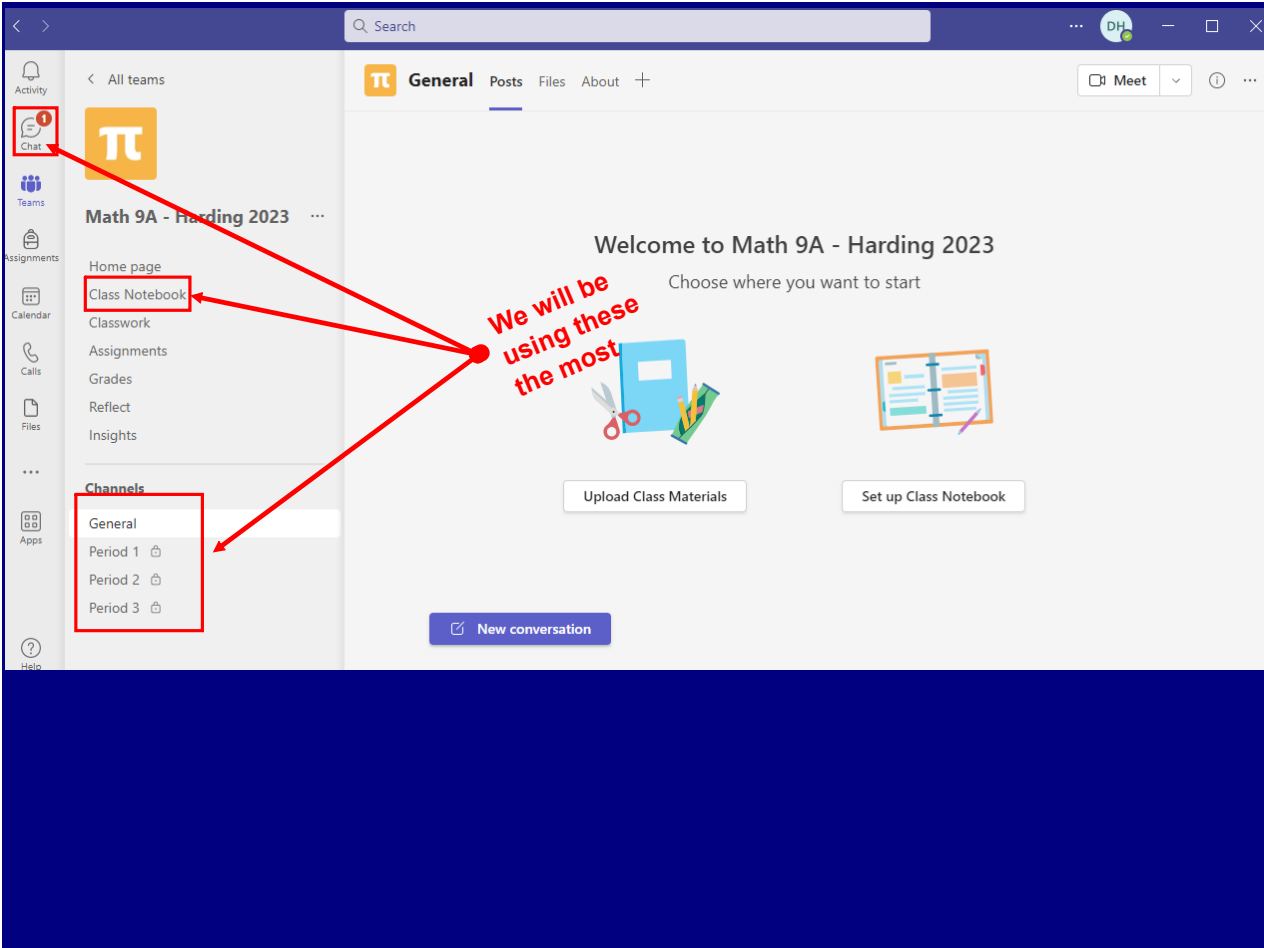

Steps:

- 1) Sign into Microsoft Office
- 2) If you have a iphone, download the "Teams"app
- 3) Also download the "OneNote" app

If you can bring your device to school, we will have a training session on this so you will know how to access this at home!

TEAMS & CLASS NOTEBOOK LOOKS LIKE THIS

Under "Content Library" you will find the course units. Under your current unit tab, you will find the daily lessons, videos lesson, and homework assignments.

This is where assignments will be posted. You will get a notification in your general channel. These assignments will be linked to your class notebooks. This will only be used if we get sent home.

Bring Your Own Device

(BYOD)

IPHONE & Android

Select mNB in your WIFI selection

Enter {Active Directory username} in Username field

Enter {Active Directory Password} in Password field

Android 11 Google Pixel 3 and UP

Select mNB in your WIFI selection
